- Managed inventory
- Maintained product organization

19 August 2025

Fiona O'Sullivan

Motion Graphics Manager

Sircle Media

Letter of Recommendation for Lindsay Jacobs

Lindsay has been an intern at Sircle Media for the Summer 2025 semester. She took on various graphic and animation projects throughout the duration of her internship and worked across the creative department, and social media management department. As her supervisor during this time, I saw how she grew both her design and animation skills while working on these projects with the team. She worked on various clients, having to learn branding across multiple different styles and products - getting to know what each client likes and dislikes in their design. She is also a fast worker and turned around picky client edits fairly quickly and without complaints.

In addition to being a good designer and animator, Lindsay is also a great communicator. She was always proactive in her communications with the team, and eager to collect and implement feedback. She was not afraid to reach out to any member of the team, and never hesitated to clarify or collaborate on a project. Every month she made sure to meet with me to make sure there was nothing else she could improve upon while at Sircle.

Lindsay has both the technical and soft skills and would be a great asset to any team she is a part of. I really enjoyed my time working with her and recommend her for this position.

Sincerely,

Fiona O'Sullivan
